

Bounce, Parties & Events

Safety Sheet & Operator Agreement

Keep this sheet visible near the inflatable during your event. Following these rules keeps guests safe and your Bounce Assurance coverage valid.

1. Adult Supervision & Capacity

- A responsible adult (21+) must supervise the inflatable at all times while in use.
- Never exceed the posted max rider count or combined weight limit.
- Group riders by similar age and size — no mixing toddlers with big kids or adults.

2. Rider Rules

- Remove shoes, eyeglasses, dangling jewelry, and sharp objects before entering.
- No food, drinks, gum, or silly string inside or near the unit.
- No flips, wrestling, climbing walls, or hanging from netting.
- Bounce feet-first and stay in control at all times.

3. Weather Shutdown

- Evacuate immediately if sustained winds reach 15 mph or higher.
- Unplug blowers and let the unit deflate completely.
- At the first sign of lightning or thunder, exit and wait 30 minutes after the last clap.
- Do not re-inflate until winds drop and weather has fully passed.

4. Power & Setup Safety

- Blowers must stay plugged in and running while the unit is occupied.
- Use GFCI-protected outlets and commercial-grade extension cords only.
- Unit must be staked or sandbagged before riders enter.
- Keep a clear 6-foot safety zone around the inflatable.

5. Water Slide & Dunk Tank Rules

- One rider at a time on most water slides; slide feet-first only.
- Wait until the landing area is clear before sliding.
- Dunk tanks require adult attendant supervision at all times.
- No running, pushing, or horseplay on wet surfaces.

6. Concessions & Generator Safety

- Keep children away from hot popcorn, cotton candy, and snow cone machines.
- Do not touch heating elements or open oil reservoirs while machines are on.
- Generators must be refueled only when turned off and cool.
- Place generators at least 20 feet from windows, doors, and gathering areas.

7. Pet & Site Prep Rules

- All pets must be secured indoors during delivery, setup, and pickup.

- Clear the setup area of sticks, rocks, toys, furniture, and pet waste.
- Confirm at least 18-20 ft of overhead clearance and a 3-4 ft access path.
- Have a working outlet within 100 ft or reserve a generator.

8. Sun, Heat & Hydration

- In Florida heat, inflatable surfaces can get hot — check before letting riders in.
- Provide shade breaks and water, especially for younger children.
- Use water slides to cool down, but watch for signs of overheating.
- Limit continuous play to 15-20 minute sessions on very hot days.

9. Overnight / Multi-Day Rentals

- A responsible adult must remain present and supervise any overnight use.
- No unsupervised use after dark.
- Secure the unit against wind and weather if left inflated overnight.
- Keep blowers running only when the unit is in use; do not leave running unattended.

Operator Agreement

By signing below, I acknowledge that I am the responsible adult (21+) operator for this rental and agree to the following:

- I have read and understand the Safety & Usage Guidelines provided by Bounce, Parties & Events.
- I agree to provide continuous adult supervision (21+) whenever the inflatable is in use.
- I will enforce posted capacity limits and age/size grouping rules.
- I will evacuate the unit and unplug blowers if winds reach 15 mph or if severe weather approaches.
- I will keep pets, food, drinks, gum, and silly string away from the inflatable.
- I understand that damage caused by misuse, neglect, or rule violations is my financial responsibility.
- I will keep the setup area clear and provide safe access for delivery and pickup.
